

THE CALEDONIAN

The Children's Corner.

The Shingle Boat—A Good Story.

Little John Cole's father was about to die, and he had no property to leave to his wife and children, he felt very anxious and unhappy. Johnny had been told that his father would die, but he did not know what death meant; and, therefore, with all the innocence of a good little boy, he asked his father what he could do to help him. "You cannot help me, Johnny," said the sick father, "but when I am gone you can help your mother." "Where is papa going to?" said John, "can't you let me go with him?" "No, nobody can go with me; I must go alone."

"When will papa come back?" said the little fellow; "without any papa where will we get money to buy bread?" "I shall never come back, my dear boy. When people die they never come back." "Well then, will you not send for us, papa? for we can't live without you." "You will break my heart, Johnny, if you talk so. I shall not send for you but God will, and then we shall meet again. Now, my dear boy, you must stay with your mother, and try to make her happy." "So I will," said Johnny, "but I don't know how to. I can't work much yet. Yes, I can make shingle boats and sell them." "You can do better than that," said the father, "you can be a good boy, and behave well, and love your mother, and this will help her more than any work you can do." "Well, I'll do all that," said Johnny; "but people won't love mother because I love her, and then where is the bread to come from?" "God will send it, if you are good," said the poor man, who could hardly speak, he was so overcome by the innocent talk of his little child.

The father died; and the poor widow had to go into a single room, and out almost every day to support Johnny and his sister. Johnny did all he could to help his mother; and he did a great deal, for when his mother was absent, he took care of little Sis. When she was asleep, one day, he took the jack knife that had belonged to his father, and made what he called a boat, out of a shingle, and then stood at the door and asked every one that came along to buy it. "Do you want to buy a boat?" said he to a large boy who was passing. "You get out!" said the boy, as he knocked the boat into Johnny's face and broke the mast. The poor boy's heart was almost broken, too, but he made another mast, and stood at the door again. Two little girls came along, and Johnny asked if they wished to buy a boat. "What do you call it?" said one of the girls. "It's a funny looking boat." "We don't sail boats," said the other girl. "Well, you don't know what fun it is," said the little boat-builder. "We have no wish to know?" said they, after laughing at poor Johnny.

Presently an officer of the frigate that was lying in the harbor, passed by. "Please buy my ship?" said Johnny, very impudently. "Did you make it?" said the officer. "Yes, I did myself," said Johnny. "What put it into your head to make a ship?" said the good-natured man. "Why, you see," said the little fellow, "Sis hasn't any bread to eat, and I thought I'd work and earn some money, and buy some." "Who is Sis?" said the Captain. "Why, don't you know Sis?" said Johnny; "just look in here." So the officer entered, and saw Sis asleep on the bed. "Whom do you belong to?" said the Captain. "Mother, now," said Johnny, "for father is dead and gone away." Just then the Sis opened her eyes, and seeing the uniform of the officer she began to laugh. "What do you ask for your ship?" said the Captain. "One cent, if you can't give any more," said Johnny. "The Captain gave him a pat on the cheek, and said, 'Wait a few minutes, and I'll come back and buy your ship.' He went out and bought two large loaves of bread, and gave them to Johnny. He then patted Johnny's head and told him to be a good boy, and he would come back and see his mother. He did call again, and after learning all about the family, he promised to take care of them; and when Johnny was a large boy he took him on board his ship, and when he had grown up and learned all about the ship, the captain made an officer of him, and adopted him; and after a battle, when he was dying of a wound he had received, he asked Johnny, who was now Lieutenant Cole, to hand him that casket on the deck. "Open it," said the captain, giving him a key. "What do you find there?" said the captain. "Nothing but my shingle boat," said Johnny. "When you made that boat you made your fortune," said the captain. "Under the boat is my last will, and all the property I have is yours." John became a rich man and he deserved it.

Now, what is the chief object of this story? Merely to teach you that, if you are good, and do all you can, God will in some way help you. The shingle boat was a small affair to the unfeeling boy who broke it, and to the thoughtless girls who laughed at it, but to the officer and to God it was above all price. Go then my young friends, and in your conduct imitate Johnny Cole.—S. S. Gazette.

YOUNG AMERICA.—A lady, teaching her little daughter, four years old, pointed to something in the book, and asked, "What is that, my dear?" "What, don't you know?" inquired the child. "Yes," said the mother, "but I wish to find out if you know." "Well," responded the little Miss, "I do know." "Tell me then, if you please," said the lady. "Why, no," insisted the little one, with an arch look, "you know what it is, and I know what it is, and there is no need of saying anything more about it."

A little fellow, not more than five years of age, hearing some gentlemen in his father's tale discussing the familiar line, "An honest man's the noblest work of God," said he knew it wasn't true; his mother was better than any man that was ever made.

A citizen of Hartford tells that the first time he attended church, he, a little four year old, was seated in a pew. Upon his coming home he was asked what he did in church, when he replied, "I went into a cupboard and took a rat on the shelf."

A little boy disputing with his sister on some subject, I do not now remember what, said "It's true, for ma said so; and if ma says it's so, it's so, if it ain't so."

For sale by I. B. GORHAM

You can at all times find a large and well selected assortment of Boys' Copper-Tipped Boots, at I. B. GORHAM'S, 69½ For sale by I. B. GORHAM

Another Outrage.—On Thursday night last a young and industrious girl, whose parents reside in West Derby, was on her way home to give to her mother her earnings, when she was set upon by a fellow named Frank La Bontee and before he arrived, this villain made six desperate but unsuccessful attempts to outrage the girl. Before midnight she had him arrested, and the next day when her attorney informed her that he proposed to settle the matter by paying a sum of money she informed him that she wished no settlement—all she desired was that La Bontee should be punished and placed where he could not do the like again. The matter was finally "fixed up," by a small fine, and an enlistment on the part of the prisoner to raise the money to pay the same.—Newport News.

The "fixing up" by the attorney was hardly less an outrage than that committed by the other villain.

ANNUAL MEETING OF THE PASSUMPSIC SAVINGS BANK

The corporators of the Passumpsic Savings Bank are hereby notified to meet at the office of Jonathan Ross, in St. Johnsbury, on Wednesday, the 9th day of March, 1864, at 1 o'clock P. M., for the election of officers and the transaction of any business as proper to be transacted before said meeting.

Attest: A. WILLARD, Sec'y.

St. Johnsbury, Feb. 22, 1864. 86-59

N. B.—A circular of prices will be sent on application.

MASON & HAMLIN'S

CABINET ORGANS.

PATENTED OCT. 21, 1862.

"THE CABINET ORGANS are pronounced by artists to be the best of their kind in the world," and "very admirable for both private and public use." See written testimonials from more than 100 of the most eminent organists in the United States. The following are a few of the names of those who have received the only gold medal ever awarded in this country for the manufacture of musical instruments. In 1855, at the Exposition Universelle, Paris, France, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1859, at the Exposition Universelle, London, England, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1862, at the Exposition Universelle, Philadelphia, Pennsylvania, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1864, at the Exposition Universelle, New York, New York, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1866, at the Exposition Universelle, London, England, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1868, at the Exposition Universelle, Philadelphia, Pennsylvania, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1870, at the Exposition Universelle, New York, New York, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1872, at the Exposition Universelle, London, England, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1874, at the Exposition Universelle, Philadelphia, Pennsylvania, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1876, at the Exposition Universelle, New York, New York, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1878, at the Exposition Universelle, London, England, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1880, at the Exposition Universelle, Philadelphia, Pennsylvania, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1882, at the Exposition Universelle, New York, New York, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1884, at the Exposition Universelle, London, England, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1886, at the Exposition Universelle, Philadelphia, Pennsylvania, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1888, at the Exposition Universelle, New York, New York, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1890, at the Exposition Universelle, London, England, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1892, at the Exposition Universelle, Philadelphia, Pennsylvania, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1894, at the Exposition Universelle, New York, New York, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1896, at the Exposition Universelle, London, England, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1898, at the Exposition Universelle, Philadelphia, Pennsylvania, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1900, at the Exposition Universelle, New York, New York, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1902, at the Exposition Universelle, London, England, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1904, at the Exposition Universelle, Philadelphia, Pennsylvania, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1906, at the Exposition Universelle, New York, New York, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1908, at the Exposition Universelle, London, England, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1910, at the Exposition Universelle, Philadelphia, Pennsylvania, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1912, at the Exposition Universelle, New York, New York, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1914, at the Exposition Universelle, London, England, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1916, at the Exposition Universelle, Philadelphia, Pennsylvania, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1918, at the Exposition Universelle, New York, New York, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1920, at the Exposition Universelle, London, England, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1922, at the Exposition Universelle, Philadelphia, Pennsylvania, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1924, at the Exposition Universelle, New York, New York, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1926, at the Exposition Universelle, London, England, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1928, at the Exposition Universelle, Philadelphia, Pennsylvania, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1930, at the Exposition Universelle, New York, New York, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1932, at the Exposition Universelle, London, England, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1934, at the Exposition Universelle, Philadelphia, Pennsylvania, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1936, at the Exposition Universelle, New York, New York, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1938, at the Exposition Universelle, London, England, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1940, at the Exposition Universelle, Philadelphia, Pennsylvania, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1942, at the Exposition Universelle, New York, New York, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1944, at the Exposition Universelle, London, England, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1946, at the Exposition Universelle, Philadelphia, Pennsylvania, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1948, at the Exposition Universelle, New York, New York, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1950, at the Exposition Universelle, London, England, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1952, at the Exposition Universelle, Philadelphia, Pennsylvania, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1954, at the Exposition Universelle, New York, New York, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1956, at the Exposition Universelle, London, England, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1958, at the Exposition Universelle, Philadelphia, Pennsylvania, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1960, at the Exposition Universelle, New York, New York, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1962, at the Exposition Universelle, London, England, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1964, at the Exposition Universelle, Philadelphia, Pennsylvania, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1966, at the Exposition Universelle, New York, New York, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1968, at the Exposition Universelle, London, England, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1970, at the Exposition Universelle, Philadelphia, Pennsylvania, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1972, at the Exposition Universelle, New York, New York, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1974, at the Exposition Universelle, London, England, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ." In 1976, at the Exposition Universelle, Philadelphia, Pennsylvania, the gold medal was awarded to the firm of Mason & Hamlin, for their "Cabinet Organ."
